

WOCHENBULLETIN

Tue 24.10.2017 9:00-11:00 ETH Zürich, Hönggerberg
HPF G 6

D-PHYS

D-PHYS (members only)
"Betriebskommission der Betriebe D-PHYS"

Tue 24.10.2017 11:30 ETH Zürich, Hönggerberg
HIT E 41.1
Host: Beisert/Gaberdie

Strings, CFT & Integrability

Andrea Campoleoni (ETH Zurich)
"Higher-spin BMS symmetries in four dimensions and soft theorems"

<http://seminars.itp.phys.ethz.ch/view?series=qftstrings&period=17HS/link>

Wed 25.10.2017 11:00 ETH Zürich, Hönggerberg
HPK D 24
Host: Christl Marcus

Ion Beam Physics Seminar

Hannah Gies (Department of Earth Sciences, ETH Zurich)
"Environmental controls on riverine export of organic carbon"

<http://www.ams.ethz.ch/education/seminar.html/link>

Wed 25.10.2017 13:30-15:30 ETH Zürich, Hönggerberg
HIT E 41.1

Particle Physics Seminar

George Sterman (Stonybrook University, New York, USA)
"Factorisation in QCD"

Wed 25.10.2017 16:15 ETH Zürich, Hönggerberg
Apero after the colloquium HPV G 4
Host: Faist

The Zurich Physics Colloquium

Alfred Leitenstorfer (Department of Physics, University of Konstanz,
Germany)
"Time-Domain Quantum Physics of the Electric Field"

<http://www.colloquium.phys.ethz.ch/link>

Thu 26.10.2017 15:00 ETH Zürich, Hönggerberg
HPF G 6
Host: Grange

Laser Seminar

Karim Achouri (Ecole polytechnique de Montréal, Canada)
"Design and Applications of Electromagnetic Metasurfaces"

<http://www.fastlab.ethz.ch/laser-seminar.html/link>

Thu 26.10.2017	15:15	ETH Zürich, Zentrum HG G 43
----------------	-------	--------------------------------

Talks in Mathematical Physics

Igor Kanatchikov (National Quantum Information Centre, Gdańsk, Poland)

"Quantum gravity from scratch: precanonical quantization"

<https://www.math.ethz.ch/news-and-events/events/research-seminars/talks-in-mathematical-physics.html/link>

Thu 26.10.2017	16:00	PSI Area Ost OSGA E 06 Host: Ghezzi
----------------	-------	---

LTP/PSI-Colloquium

Thomas Teubner (University of Liverpool, UK)

"g-2 of the Muon"

<https://www.psi.ch/ltp/thursday-colloquium/link>

Mon 30.10.2017	14:00	UZH Irchel Y16 G 05
----------------	-------	------------------------

Particle Physics Seminar

Tina Pollmann (TU Munich, Germany)

"First results from the DEAP-3600 single-phase liquid argon Dark Matter experiment"

<http://www.physik.uzh.ch/en/seminars/tpseminar/HS2017.html/link>
